2022 Project 27. 19. Your name still may be on it even if the music has been changed, or others may claim authorship over your work.2. There will be a 24-hour prerelease of v0.1.6a on June 5th. That will be the first official release. Then on June 6th, the v0.1.6 will be released. If you have not yet applied for keys, I will post how to install the public key and get access to the prerelease when the public prerelease is posted. In the meantime, I will sort out keys and add you to the list, as I do not yet have a grand plan for how keys will be handled in the future. Please contact me and I will assist you as I can. **MUST READ IF YOUR MUS FILE HAS BEEN CHANGED, TOO.** Finale can produce soundfiles with a modification history. These files are required to be in accordance with Finale's sound file format specifications. I cannot accept a file that has been changed beyond what Finale accepts. If I were to produce a file that adhered to Finale's sound file specifications, it would be a write-only file as Finale would not be able to play back the past modifications. If you have modified a file and saved it with Windows, the modification history is likely to be lost. For best results, I suggest that you keep a backup of your files. In the case where you have made multiple edits to the same file, you should make and save a copy of each editing session. Oct 4, 2018 I will have keys available for the public release in a week or two. I will give keys when I can. Aug 2, 2019 I am still sorting out the direction of the project. I will notify you of updates here. Mar 9, 2020 I have released a prerelease of v0.3.0 and hope to have a good release soon. It is available to all people with keys. Feb 22, 2020 I will give keys as soon as I can, possibly on March 15th. I am working on v0.4.0 which is a full rewrite, so my time on this project will be limited. I will do my best to get it out as soon as I can. Jul 30, 2020 For now, since music files are large, I will not provide keys for a public release for a few weeks.
